

Resonance

Capability Statement

2024

Company Overview

Resonance Consulting Pty Ltd, trading as “Resonance,” is a consulting and project management firm established in 2014. Our team comprises project professionals and consultants with diverse backgrounds, including asset management, business, science, ICT, engineering, art, and the community sector. We are dedicated to providing comprehensive project management services across various sectors, ensuring successful project outcomes.

Core Capabilities

Project and Program Management

- Expertise in managing projects from inception to completion, including major construction works, ICT projects, systems improvement projects, and community projects
- Dedicated project managers focusing on time, quality, scope, and budget.

Project Planning

- Development of well-defined objectives, clear governance, careful scheduling, and effective stakeholder management
- Conducting planning workshops and providing advisory or review functions.

Project Procurement

- Planning procurement, developing specifications and running procurement processes
- Extensive experience in managing tenders and contracts.

Project Rescue

- Identifying root causes of project issues and developing solutions to get projects back on track
- Conducting project health checks and diagnostics.

Construction Management and Contract Administration

- Providing superintendent services, contract administration, and construction supervision.

Stakeholder and Community Engagement

- Managing consultation, capability development, training, and engagement to meet stakeholder expectations and build buy-in.

Consulting and Advisory

- Strategic planning, HSEQ system improvement, business and process improvement, and project management frameworks
- Conducting external reviews and assurance of business cases or projects.

Workshops and Consultation

- Planning and managing consultation for strategy development, business cases and projects
- Offering bespoke training, for example, business case preparation and investment logic mapping.

Business Cases and Funding Applications

- Crafting compelling business cases and successful funding submissions
- Efficiently taking funding allocations to practical implementation.
