

Resonance

# Capability Statement

---

2025

## Overview

---

Founded in 2014, Resonance is a trusted Australian consultancy with a strong track record in project delivery. Our team brings together expertise across asset management, business, science, ICT, engineering, communications, and the care economy.

## Core Capabilities

### Project and Program Management

---

- Expertise in managing projects from inception to completion, including major construction works, ICT projects, systems improvement projects, and community projects
- Dedicated project managers focusing on time, quality, scope, and budget.

### Project Planning

---

- Development of well-defined objectives, clear governance, careful scheduling, and effective stakeholder management
- Conducting planning workshops and providing advisory or review functions.

### Project Procurement

---

- Planning procurement, developing specifications and running procurement processes
- Extensive experience in managing tenders and contracts.

### Project Rescue

---

- Identifying root causes of project issues and developing solutions to get projects back on track
- Conducting project health checks and diagnostics.

### Construction Management and Contract Administration

---

- Providing superintendent services, contract administration, and construction supervision.

### Stakeholder and Community Engagement

---

- Managing consultation, capability development, training, and engagement to meet stakeholder expectations and build buy-in.

### Consulting and Advisory

---

- Strategic planning, HSEQ system improvement, business and process improvement, and project management frameworks
- Conducting external reviews and assurance of business cases or projects.

### Workshops and Consultation

---

- Planning and managing consultation for strategy development, business cases and projects
- Offering bespoke training, for example, business case preparation and investment logic mapping.

### Business Cases and Funding Applications

---

- Crafting compelling business cases and successful funding submissions
- Efficiently taking funding allocations to practical implementation.

## What sets us apart

### → Customer-driven project outcomes

We help our clients achieve better service outcomes, through structured planning, sharp delivery, and genuine engagement

Our work drives impact—supporting communities, reducing costs, and improving performance.

### → Tailored and end-to-end services

We manage the entire project lifecycle or support specific stages—always guided by what adds value

Whether you need a strategic advisor, a hands-on project manager, an engagement lead, or all of the above—we're ready.

### → Local knowledge, sector-wide experience

Our team brings deep sector insight and strong local relationships

We're known for being adaptable, proactive, and easy to work with.

## Our advantage

### → Better results

We improve project outcomes by integrating planning, delivery, and stakeholder engagement.

### → Value for money

Efficient systems and resourcing keep costs down while maintaining quality.

### → Happier stakeholders

Meeting and exceeding stakeholder expectations through effective engagement and consultation.

**At our core, we focus on helping clients deliver projects that enhance services for their own customers—safely, on time, and with value for stakeholders.**

We support projects across the full lifecycle—from early strategy and investment planning through to delivery, and into commissioning and handover to Business as Usual. We do this across several sectors including water, health, education, land development, transport and energy.

**Let's talk about how we can support your next project.**
